

Catarrh

In its Worst Form
Life Almost a Burden
A Glorious Change Due Solely to
Hood's Sarsaparilla.

Mrs. C. King
Geneva, Ohio.

Catarrh is a constitutional disease, and therefore it can only be cured by a constitutional remedy like Hood's Sarsaparilla. Read what it did for Mrs. King, concisely expressed in her own voluntary words:

"C. I. Hood & Co., Lowell, Mass.: Gentlemen:—From a grateful heart I write what your grand medicine, Hood's Sarsaparilla, has done for me. Five bottles cured me of catarrh in its worst form. I think it was only a matter of time when it would have ended in Bronchial Consumption."

I can scarcely realize wherein a few months ago life was almost a burden, sick and discouraged, now I am **Well and Happy**, gaining flesh and a new being. And all owing to Hood's Sarsaparilla. I will never be without it. Yours gratefully, Mrs. C. KING, Geneva, Ohio.

Hood's Pills cure liver ills, jaundice, biliousness, sick headache and constipation. See

Do Trees Require Sleep?

In the larger cities, where shade trees are few and scattering electric lights seem to have no visible effect upon their foliage. In the towns and villages, however, many of which have their electric light systems, the effect is very noticeable, the leaves appearing as though they had been subjected to the blighting breath of a harmanian. The question was recently discussed at a meeting of the eastern arboriculturists, the conclusion being that trees need darkness in order that they may sleep, and that being continually kept awake and active they have been worn out and made prematurely old by the action of the light. That this is probably the correct solution of the mystery of the drooping leaves may be judged from the fact that similar trees in the neighborhood of those affected, though not exposed to the illumination, still retain their color and seem bright and strong.—St. Louis Republic.

What She Liked.

Young Mr. Hopkins went to the World's fair at Chicago, and while there met a charming American young lady who proved to be his fate. After a brief wooing they were wed, and young Hopkins sent to the old folks at home a glowing description of his wealthy, handsome and accomplished wife. A few months later they returned to England, and old Mr. Hopkins invited a few friends to a quiet supper to meet his "charming daughter-in-law," as he termed the lady.

The evening passed off splendidly till supper, and then we were astounded. The old gentleman asked Mrs. Hopkins, Jr., what she would take for supper, saying, "I am afraid our homely English dishes cannot compare with your American delicacies." "Perhaps not," came the unexpected reply, "but I'll tell you what I'd like, and that is some of that cold cabbage left from dinner. I'm a Nebuchadnezzar for greens."—London Chronicle.

A Clean Collar

One that you can keep clean all the time—a collar that does not wilt when you get over-heated; that does not fray on the edge, or tear out at the buttonholes, and can be cleaned by simply wiping off with a wet sponge or cloth. These collars and cuffs are made by covering linen collars or cuffs on both sides with waterproof "celluloid," thus giving strength and durability. They are the only waterproof goods so made, and every piece is stamped as follows:

Ask for this, and refuse to take any imitation if you expect satisfaction. If your dealer does not keep them, send direct to us, enclosing amount, and we will mail you sample. Collars 25 cts. each. Cuffs 50 cts. pair. State size, and whether stand-up or turned-down collar is wanted.
